- The pacing was a bit quick, and there were too many references to Math 201/202 which made me feel unprepared and lost at some points. I really appreciated the notes that you provided, but I think the combination of an early morning math course and fast pacing made me feel a little hopeless when trying to learn the materials. Thanks for a great session!
- professor Jiu teaches this class really systematically. he divided the course into 3 sections, which are very clear and rigorous. And the his notes are also very detailed, which is very helpful.
- nothing
- Thank you very much for this great course, Professor Jiu. Thank you very much for showing the great world of probability and statistics to us. Thank you for all the detailed solutions and homework instructions. Thank you for the well-organized and super helpful notes. Thank you for being there for questions.
